

! Pick up and dispose of your dog's poo in the appropriate container for organic waste !

Excrement is a way of spreading disease between pets and can create outbreaks of infection through parasite eggs that can infect people

It's very unpleasant to see dog poop on the street and gives a bad image to neighbours and visitors

The hands, the soles of shoes, a ball can transmit a parasite that affects children between 2 and 7 yrs and can cause **serious eye diseases**

Dog defecation in parks DOES NOT contribute to the environment as being biodegradable matter, it is infact "non-biodegradable"

! Prevent dogs from running loose in the streets, in parks and gardens and where children play outdoor sports and around schools , to control their behavior and where they poo !

For cleaner more hygienic streets

NO DOG POO

IF YOU HAVE A PET

NEVER ABANDON THEM!

If you have a pet or are thinking of getting one

REMEMBER:

You must keep them in good conditions providing decent treatment, according to the needs of each species

Take them out on a lead

PETS SHOULD NOT CAUSE A NUISANCE TO NEIGHBOURS

A pet is your responsibility it must be properly identifiable.

Take it to the vet.

You should register your dog at the Town Hall

I am a dog, don't treat me like a pig.

Our goal is to consolidate civic behavior through education and promotion of better habits among citizens to develop a culture of long-term responsibility among dog owners, thus reducing the presence of organic waste product of dog droppings

Y ahora, ¿qué será de nosotros?

¿¿.....??

¡Put me in the bin!

The owners of pets are obligated to pick up their poo

It is NOT a fertilizer for green areas

It is not lucky to stand in me!

The law 4/94 of the 8th of July by the Valencian Generalitat regarding the protection of pets, article 8, paragraphs 1,2 & 3 state:

1.-The owner and person in charge of the animal, will be responsible for all resulting damages, according to the applicable legislation.

2.- The owner or person in charge must take any measures deemed most appropriate to prevent the soiling of walkways and public spaces. The Town Halls can provide adequate facilities for this purpose in parks, playgrounds and public places.

3.- In the case of non-compliance with the measures referred to in the previous paragraphs, the Town Halls can impose a fine on the owners of the animals, the fine being set by the governing bodies in the respective ordinance.

At local level there is a Coexistence Municipal Ordinance which promotes the reduction of organic waste caused by pet droppings. The aim is to improve the welfare and conviviality of citizens and their pets

The fine is regulated by said Ordinance and being listed as serious, will range between 375 and 750 €
